

Monday, June 17, 2013 at 5:30 PM â€“

Tuesday, July 16, 2013 at 10:00 PM (EAT)

Nairobi, Kenya

Event Details

In the 4 week Bootcamp you will learn what's new in the Nokia Asha Platform and how to benefit from these new features when creating applications.

The Bootcamp is meant to boost your ideas into apps and games. We will provide you with an in-depth view on Nokia Asha UI and guide you on how to create stunning designs and great user-experiences.

In addition the Trainees will learn how to Market and Monetize Java Application with a goal of upgrading their applications/ published applications to incorporate at least 1 Nokia monetization enabler resulting to Developer Success KPI (Downloads and Revenue)

Best students will be awarded fabulous prizes.

The Bootcamp is organized by the [C4DLab](#) (based at the School of Computing & Informatics, University of Nairobi) in conjunction with [Emobilis Mobile Technology Academy](#)
