

Loise Kimwe

Chiromo Self Study Centre (SSC)

SSC is joint venture between the College of Biological and Physical Science (CBPS) and the University of Brussels (VUB). The Centre is a support facility that offers science based distance learning planning programs and resources, developing and maintaining instructional systems (video and computer assisted learning), collaboration with other institutions and student support services.

Duration: 12th May to 4th July 2014

Highlights of Attachment Activities

- Learning of Ruby on Rails Framework and the Ruby OOP language
- Learned the importance of designing a system using a user centered approach
- Designing an Income Generating Unit System for the SSC
- Other environments learned include bootstrap, CSS5 and HTML5
