INDUSTRIAL ATTACHMENT BRIEFS

Name of Student: Towey Brian Wachira
Registration No: P15/50931/2012
Institution Attached: Technical University of Kenya
Period of Attachment: Feb - April 2016

Objectives

1. Exposure to industrial work environments
2. Active participation in creating practical solutions using knowledge learnt
3. Build professional networks with potential employers

Activities Undertaken

- Hardware installation
- Computer maintenance
- Network hardware maintenance and repair
- Creating, sorting and updating a student email archive
- Developing a system to digitally sign correspondences and archived records

Lessons worth Sharing

During the attachment tenure, it became apparent that, in the ICT industry, process plays a major role in the success of a project. As players in the ICT world we must therefore place great focus on following and documenting the processes involved in our tasks. This ensures transparency and enables future parties to be able to better understand tasks undertaken and any possible changes in infrastructure.
