

## **Research and Academic Collaboration between SCI and the School of Computer Science and Engineering (SCSE) - University of Electronic Science and Technology of China (UESTC)**

The School of Computing and Informatics (SCI) is in the process of formalizing a Joint Academic and Research Collaboration with The University of Electronic Science and Technology of China (UESTC) located in Chengdu-China. The main areas of collaboration include Joint Academic Workshops, Personnel Training, Academic Exchanges and Research in areas of Computer Science and Software Engineering. To initiate the collaboration, Dr. Stephen Mburu represented SCI in the Premier UESTC- Africa Workshop on Information and Software Engineering Talent Cultivation and Academic Research held between **June 12 and 16, 2017 in Chengdu, Sichuan – China**. This was followed by academic delegation of 12 UESTC faculty, and one industry members. The delegation was warmly received by the **School Director - Dr. Agnes Wausi** together with Dr. Mburu and taken around the Chiromo and Main Campus on **Sunday 20<sup>th</sup> August 2017**.
